RUBBER INNOVATIONS

+30 YEARS OF EXPERIENCE

**GEYER & HOSAJA**

rubber innovations

**SAFETY  
ELEMENTS**

IMPORTANT  
NUMBERS:**30**YEARS OF  
EXPERIENCE**95**

EXPORT COUNTRIES

**1000**

QUALIFIED EMPLOYEES

**80000**TONNES OF RUBBER  
PRODUCTS

We have been producing rubber compounds, products and granules for markets around the world for three decades. For years, we have worked with global automotive brands, where there is no place for compromise when it comes to quality.

We work with equal passion for the agricultural, chemical, rail and road industries.

More industries are in prospect...

In 4 factories, more than 1.000 people work on innovative rubber compound products. We have more than 500 original technologies in our portfolio, developed, implemented in production and tested in use. Today, the scale of our production is more than 80.000 tonnes of rubber products, distributed to 90 countries worldwide. The numbers that describe us continue to grow... but the goal remains unchanged - manufacturing excellence of every product.

The essence of our business is to combine knowledge with creativity.

Environmental protection and sustainability are a permanent feature of today's reality. The advantage of our products is that they are 100% RECYCLABLE and contain a high proportion of recycled rubber. Production is carried out using renewable energy sources, so that by choosing to work with G&H, you are joining in the conscious management of the planet's resources.

**Geyer & Hosaja. Unique technologies but repeatable quality.**

## WHY RUBBER?

The vulcanised rubber has high abrasion **resistance** and good **flexibility**.

It has a particular **capacity** to withstand weather conditions.

Rubber is a recyclable and reusable material.

Our focus on sustainable development keeps our “**zero waste**” policy.

- Reliable **quality**
- Resistance to **ageing**
- **Waterproof**
- **Flexible**
- **Safe** for tyres
- Does not cause **noise**
- **Comes in different colours**, for example, yellow, red, or white, and **guarantees colour retention** for many years

A wide range of laboratory tests allows us to verify each product, leading to reproducible quality **confirmed by certificates**.

## SPEED BUMPS

'QUARTET' SPEED CUSHION | MODULAR SPEED RAMP | PEDESTRIAN CROSSING | RAMP  
'40' EXCELLENT' SPEED BUMP | '35' SPEED BUMP | '180 LONG' SPEED BUMP | LINEAR SPEED BUMPS  
CABLE PROTECTION RAMP | CABLE PROTECTION RAMP WITH COVER | ZEBRA BUMP

## 'QUARTET' SPEED CUSHION

**Exterior:** Vulcanised rubber

**Interior:** RECYCLED rubber

**Assembly:** 4 elements are connected and stabilised to the ground by dedicated assembly kits

**Purpose:** Urban roads with bus traffic

**Colours:** Black, red / reflective elements  
- white, yellow

### Features:

- Non-slip surface structure complying with European standard 45 SRT

- Size adjusted to be overpassed by means of public transport

Tolerance of dimensions and weight +/- 2%

### 1800 x 3000 x 65 (mm) Model

	MATERIAL	WIDTH (mm)	LENGTH (mm)	HEIGHT (mm)	WEIGHT (kg)	Pcs

# MODULAR SPEED RAMP

## option with pedestrian crossing

Exterior: Vulcanised rubber  
Interior: **RECYCLED** rubber granules + PUR

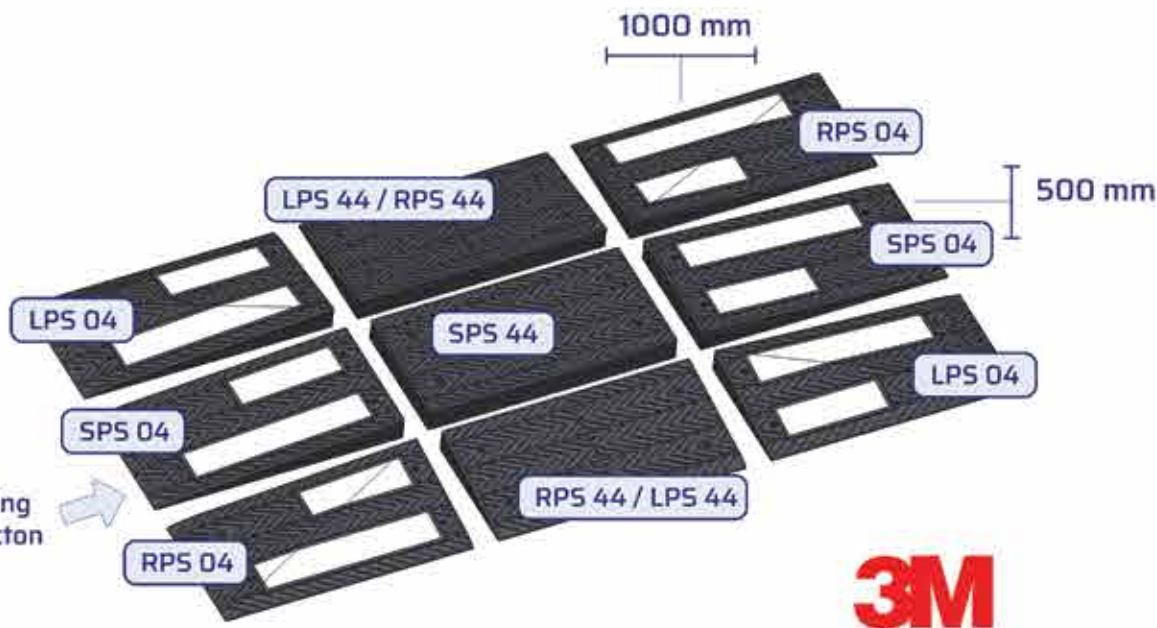

Assembly: Dedicated assembly tools

Purpose: Slowing down in lane area, raised pedestrian crossing

Colours: Black, red, white / reflective elements - white, yellow

### Features

- Non-slip surface structure complying with European standard 45 SRT
- Extremely quiet when passed across

10 cm Model | Width of elements 500 mm  
Length of elements 1000 mm

Tolerance of dimensions and weight +/- 2%

# Modular SPEED RAMP

Exterior: Vulcanised rubber  
Interior: **RECYCLED** rubber

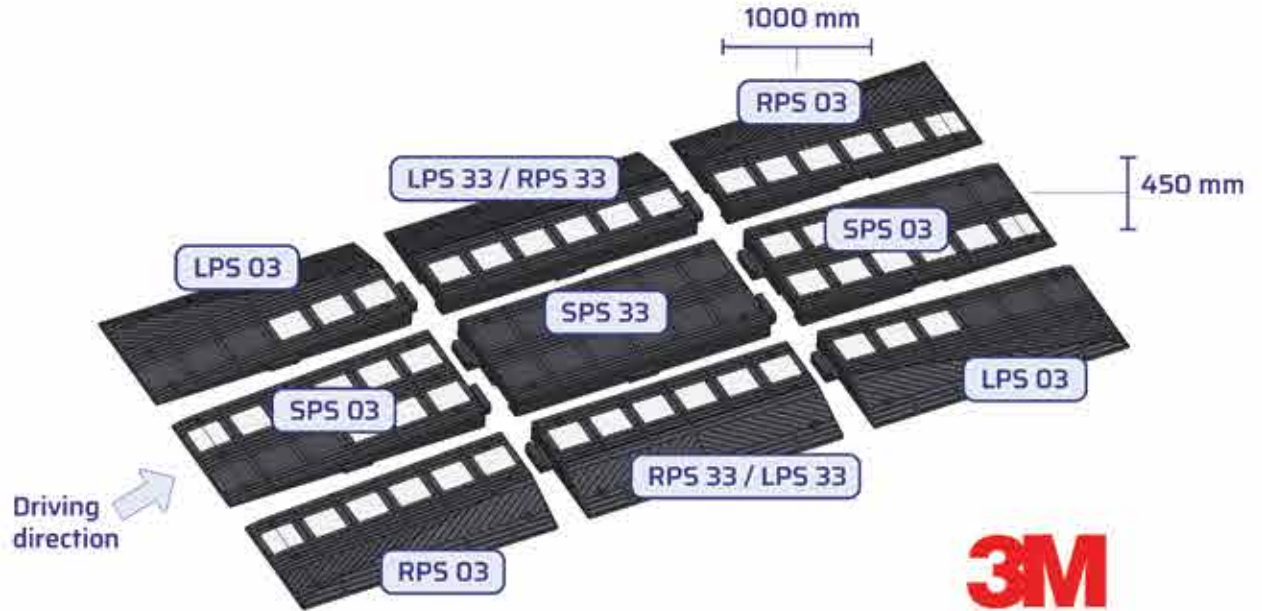

Assembly: Dedicated assembly tools

Purpose: Slowing down in lane area

Colours: Black, red, white / reflective elements - white, yellow

## Features

- Non-slip surface structure complying with European standard 45 SRT
- Design related to sinusoidal speed ramp
- Extremely quiet when passed across
- Variety of markings with reflective tape

8 cm Model | Width of elements 450 mm  
Length of elements 1000 mm

Tolerance of dimensions and weight +/- 2%

# RAMP

Exterior: Vulcanised rubber  
Interior: **RECYCLED** rubber + PUR

Assembly: Dedicated assembly kit allowing a stable connection of the ramp to the ground

Purpose: Access ramps for people with disabilities, forklift access, high kerb access

Colours: Black rubber element / reflective elements - white, yellow

## Features:

- Non-slip surface
- High visibility
- Easy to relocate

8 cm Model  
Max. width of the elements 450 mm

## Speed bump '40 EXCELLENT'

**Exterior:** Vulcanised rubber with high abrasion resistance

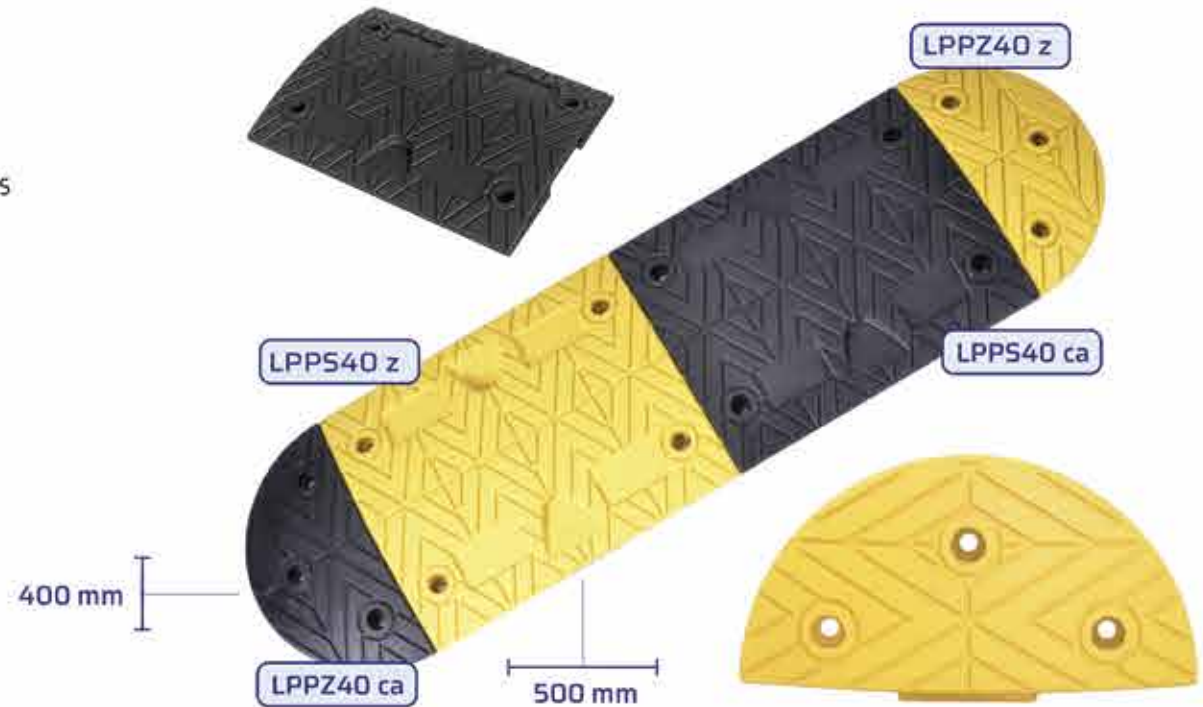

**Assembly:** Assembly to the base by using dedicated screws size 102 mm × 10 mm

**Purpose:** Housing estate roads, car parks, routes of various widths

**Colours:** Black, yellow / deeply coloured – unpainted

### Features:

- Fast assembly
- Highly visible reflective glass element

Tolerance of dimensions and weight +/- 2%

	WIDTH (mm)	LENGTH (mm)	HEIGHT (mm)	WEIGHT (kg)	FIXING KIT	REFLECTIVE ELEMENTS
LPPZ40 z LPPZ40 ca	200	400	50	1.7	3	---

## SPEED BUMP '35'

**Exterior:** Vulcanised rubber

**Assembly:** Dedicated assembly screws

**Purpose:** Housing estate roads, car parks, routes of various widths

**Colours:** Black, yellow / deeply coloured - unpainted

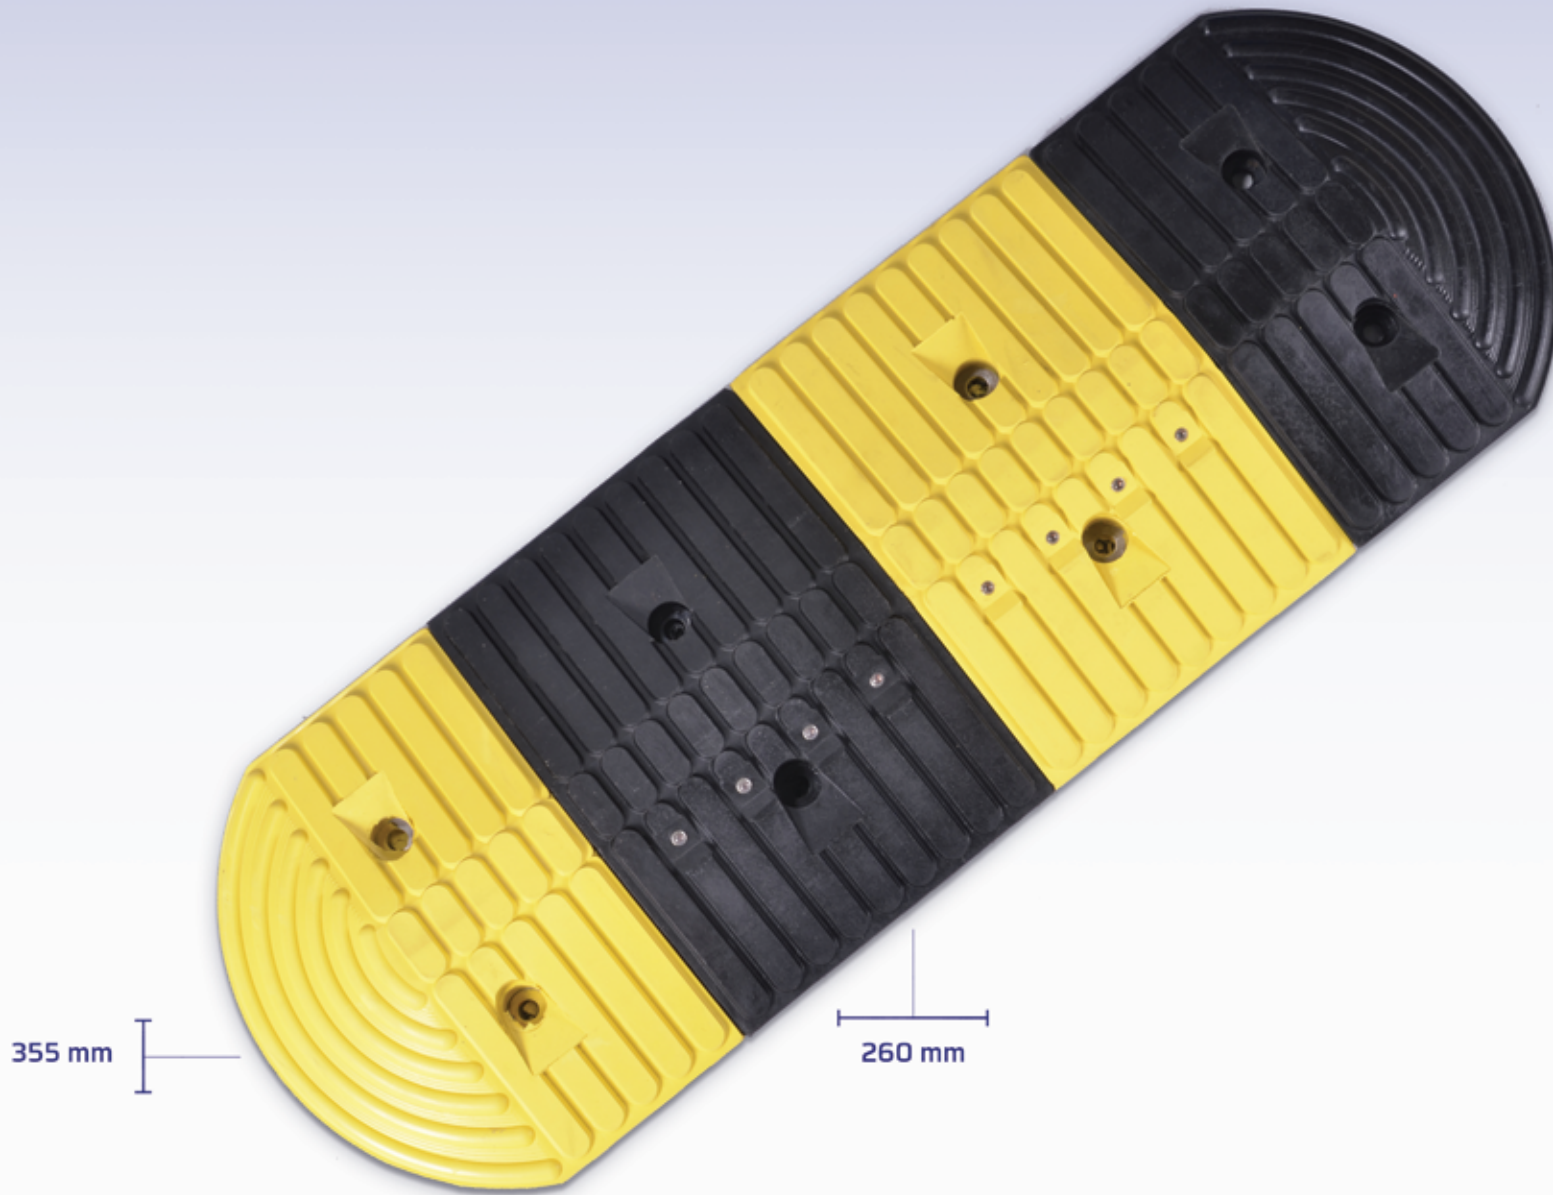

### Features:

- Fast assembly
- Highly visible reflective glass element

Tolerance of dimensions and weight +/- 2%

## Speed bump '180 LONG'

**Exterior:** Vulcanised rubber

**Assembly:** Simplified assembly to concrete and asphalt with dedicated screws

**Purpose:** Traffic calming on roads with a speed limit of 10 to 25 km/h, especially in residential and industrial areas, car parks, around schools, etc. Used as a cable protection ramp

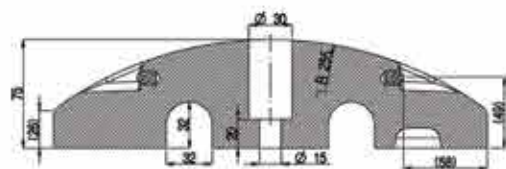

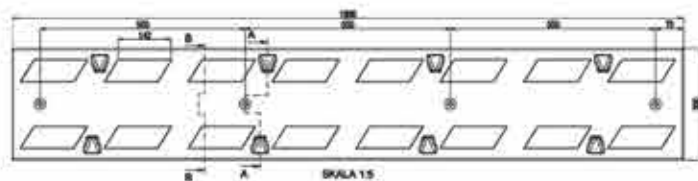

**Colours:** Black, red / reflective elements - white, yellow

### Features:

- Excellent visibility due to double reflective glass lens elements and 3M tape
- Designed channels on the underside allow for the passage of cables and wires

Tolerance of height and dimensions +/- 2%

## CABLE PROTECTION RAMP

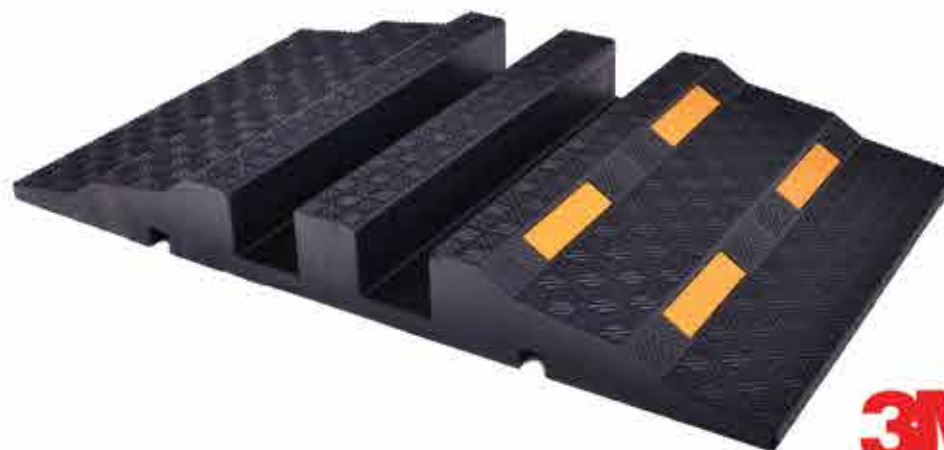

**Exterior:** Vulcanised rubber

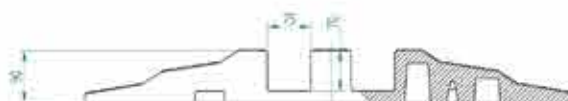

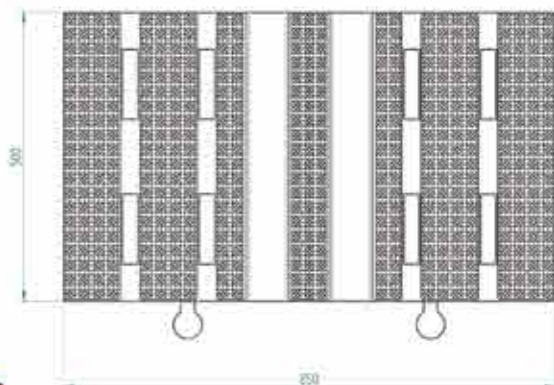

**Purpose:** Temporary protection of electrical wires, cables and fire hoses on streets, stages. Covering of cables during temporary works, in industrial halls

**Colours:** Black with reflective tape

### Features:

- Resistant to high pressures

Tolerance of height and dimensions +/- 2%

MODEL	WIDTH (mm)	LENGTH (mm)	HEIGHT (mm)	WEIGHT (kg)	REFLECTIVE ELEMENETS
CPR	500	850	90	25	yellow reflective tape

Facilitating the work of firefighters

Download the technical data sheet

## CABLE PROTECTION RAMP with cover

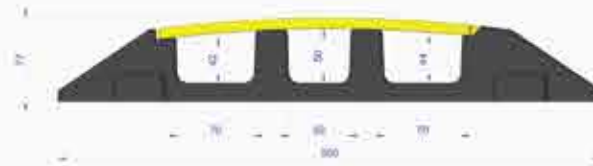

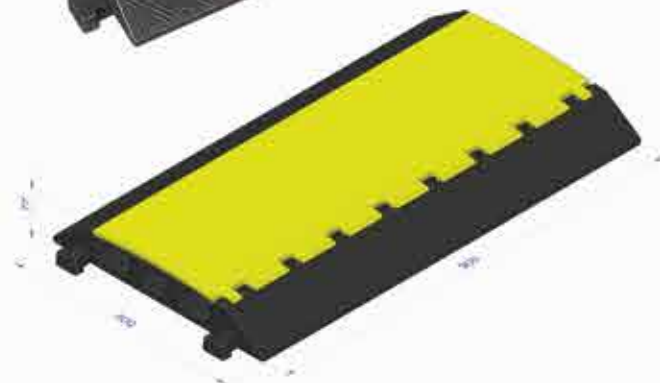

**Exterior:** Vulcanised rubber

**Purpose:** Temporary protection of electrical wires, cables and fire hoses on streets, stages. Covering of cables during temporary works, in industrial halls

**Colours:** Black, yellow

### Features:

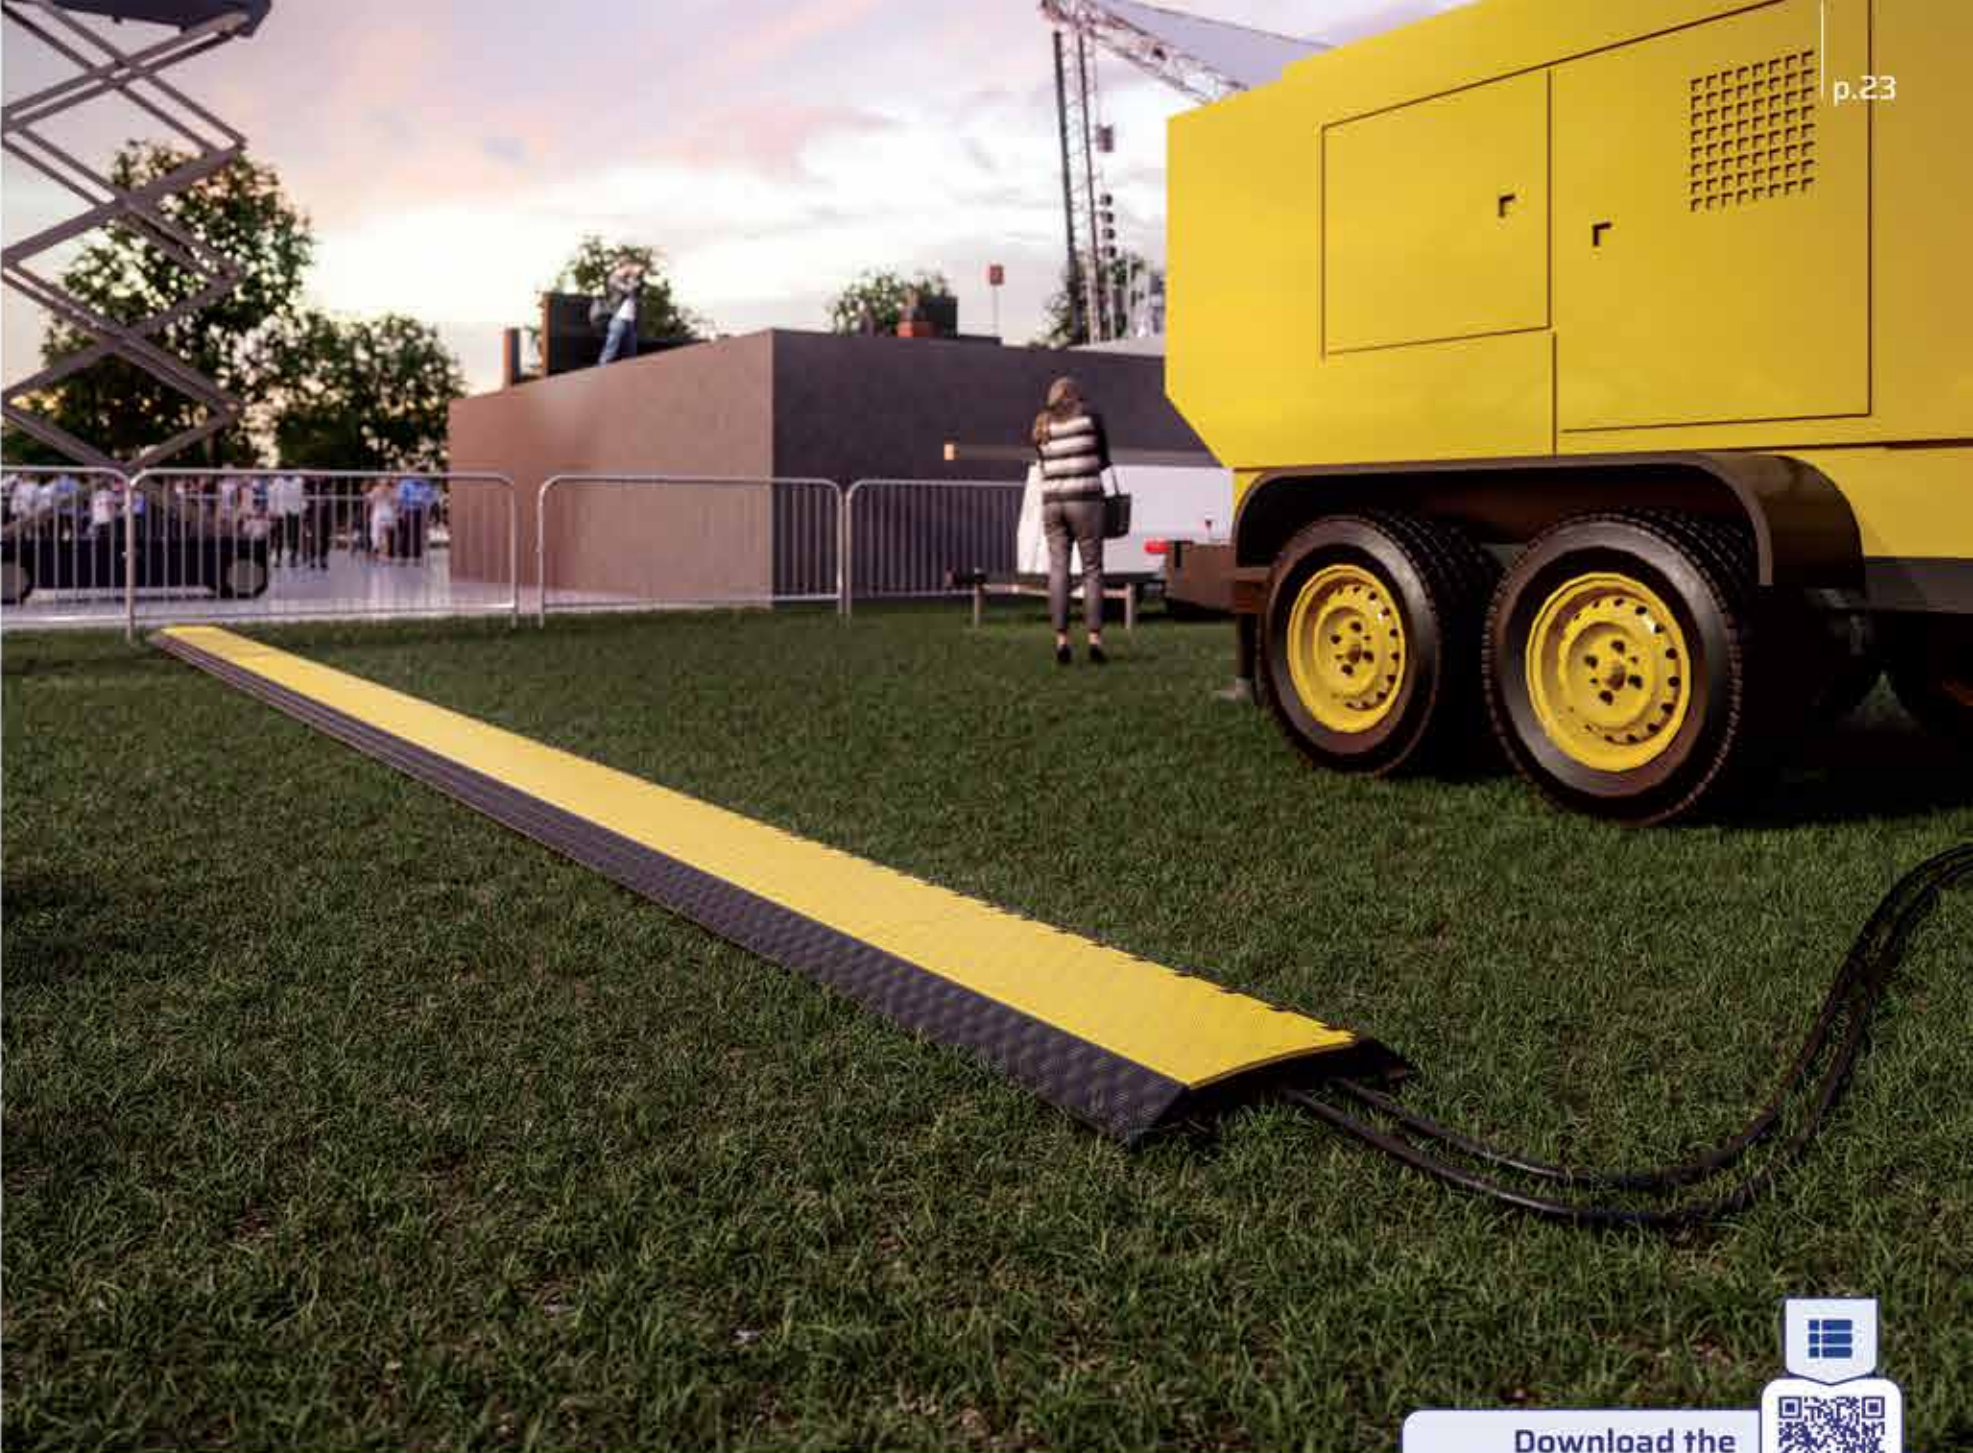

- Body and lid made of vulcanised rubber
- Resistant to high pressures
- 3-channel model separates different types of cables in separate cavities
- Protection of the cables with a weatherproof cover

Tolerance of dimensions and weight +/- 2%

MODEL	WIDTH (mm)	LENGTH (mm)	HEIGHT (mm)	WEIGHT (kg)
CPR with cover	500	900	77	21

Download the technical data sheet

## ZEBRA BUMP

**Exterior:** Vulcanised rubber

**Assembly:** Bonding to the ground

**Purpose:** Traffic calming for scooters and bicycles on the cycle path within road intersections

**Colours:** Black, yellow

### Additional information:

Integrated overrun, chamfered transverse strips

### Features:

- Bicycle-friendly
- Visible transverse stripes made of deeply coloured yellow rubber
- Installation by bonding to the ground

Dimension and weight tolerance +/- 2%

## SEPARATORS

CYCLIST SEPARATOR | HOL SEPARATOR | PARKING STOPPER | PARKING SEPARATOR  
TRUCK STOPPER | CHAIN SEPARATOR | ROAD SEPARATOR  
POINT SEPARATOR | FLEXIBLE BOLLARD U-24

## CYCLIST SEPARATOR

**Exterior:** Recycled granules

**Assembly:** Dedicated assembly elements

**Purpose:** Separation of cycling traffic from cars / tracks

**Colours:** Black / tape - white, yellow

### Additional information:

Water culverts

### Features:

- Highly visible
- Cyclist-safe design
- Can be combined in any length

Dimension and weight tolerance +/- 2%

MODEL	WIDTH (mm)	LENGTH (mm)	HEIGHT (mm)	WEIGHT (kg)	FIXING KIT	REFLECTIVE ELEMENTS	HOLES

technical data sheet

## HOL SEPARATOR

**Exterior:** Vulcanised rubber

**Assembly:** Dedicated assembly screws

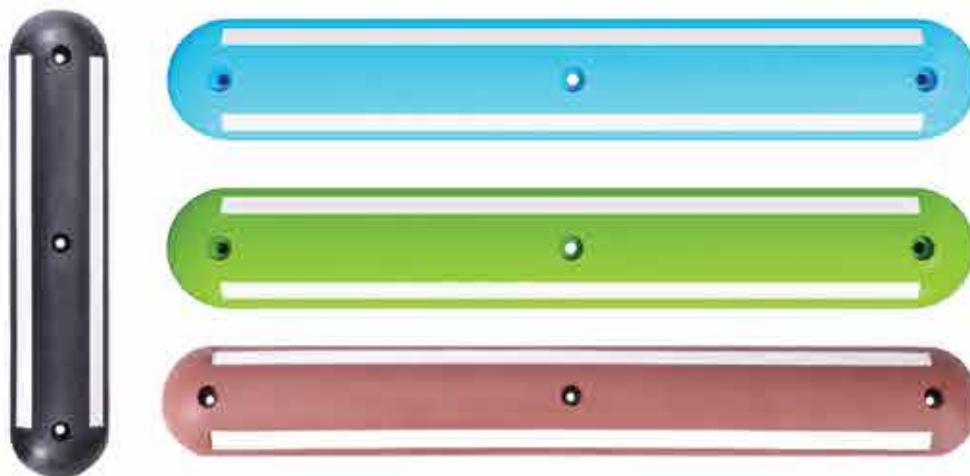

**Purpose:** Separation of cycle paths, tracks, parking spaces

**Colours:** Black, red / reflecting elements  
- white, yellow on special request

### Features:

- Separates areas providing complete safety for vehicles and bicycles

**3M**

Tolerance of dimensions and weight +/- 2%

MODEL	WIDTH (mm)	LENGTH (mm)	HEIGHT (mm)	WEIGHT (kg)	FIXING KIT	REFLECTIVE ELEMENTS

technical data sheet

# Parking STOPPER

**Material:** Vulcanised rubber

**Assembly:** Dedicated assembly screws

**Purpose:** Optimises the use of parking and garage space, provides safe parking

**Colours:** Black, red / reflecting elements  
- white, green or blue on special request

## Features:

- Safe to use for separation of cycle path

Tolerance of dimensions and weight +/- 2%

MODEL	WIDTH (mm)	LENGTH (mm)	HEIGHT (mm)	WEIGHT (kg)	REFLECTIVE ELEMENTS
PS	120	750	100	6	white tape

## PARKING

### Separator 180 / 90 / 55

Exterior: **RECYCLED** rubber granules + PUR

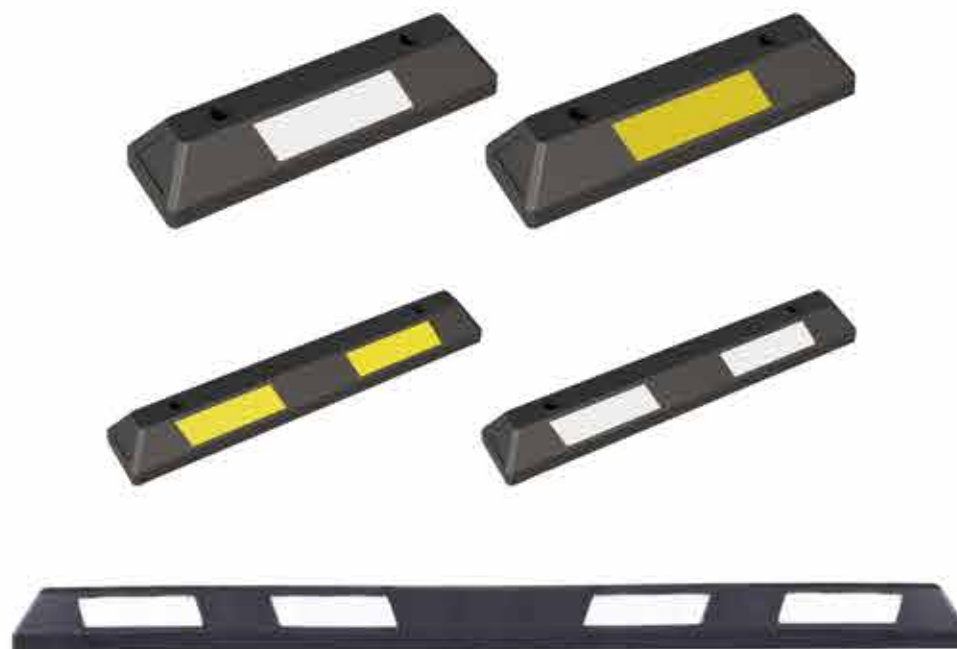

Assembly: Mounting using dedicated assembly kit

Purpose: Optimisation of used parking space in public and private areas

Colours: Black, blue, green / reflecting elements - white, yellow

#### Features:

- Perfectly visible at night, characterised by high resistance to mechanical damage - guarantees safe parking

Tolerance of dimensions and weight +/- 2%

MODEL	LENGTH X WIDTH X HEIGHT (mm)	WEIGHT (kg)	FIXING KIT	REFLECTIVE ELEMENTS
PS/180	1820 x 152 x 102	17	4	white or yellow tape
PS/90	870 x 152 x 102	8	2	white or yellow tape
PS/55	550 x 152 x 102	5.3	2	white or yellow tape

Download the technical data sheet

## TRUCK STOPPER

**Exterior:** High-quality rubber granules

**Assembly:** Mounting using dedicated assembly kit according to manufacturer's instructions

**Purpose:** Optimisation of used parking space for trucks and trailers, securing docks in logistics centres

**Colours:** Black / reflecting elements - yellow

### Features:

- High resistance to impact
- Excellent visibility at night

Tolerance of dimensions and weight +/- 2%

MODEL	LENGTH X WIDTH X HEIGHT (mm)	WEIGHT (kg)	FIXING KIT	REFLECTIVE ELEMENTS
TS/HGV	1000 x 300 x 150	24.5	5	yellow tape

Download the  
technical data sheet

See the promotional video

## CHAIN Separator

**Exterior:** Rubber granules

**Assembly:** Colour combinations according to the project, simplified connections between elements, mounting to the ground with dedicated screws

**Purpose:** Marking of exempted pavement, marking of traffic narrowings, kerb function, lane markings, organisation of street islands and roundabouts

**Colours:** Black, red, white, yellow

### Features:

- Allows organisation of irregularly shaped areas

Tolerance of dimensions and weight +/- 2%

SYMBOL	LENGTH X WIDTH X HEIGHT (mm)	WEIGHT (kg)	FIXING KIT
SŁ	600 x 160 x 160	11	1 or 2

Download the technical data sheet

## ROAD Separator

**Exterior:** Rubber granules

**Assembly:** Dedicated assembly screws

**Purpose:** Temporary and permanent separation of lanes, road markings

**Colours:** Black, yellow / reflecting elements  
- white, yellow

### Features:

- The holes used allow the assembly of vertical markings and additional reflectors, we also offer additional equipment in the form of reflective 'mushrooms' and a U-6 sign on a flexible hinge

\* white tape on demand

Tolerance of dimensions and weight +/- 2%

Download the  
technical data sheet

## Flexible Bollards U-24

**Exterior:** Vulcanised coloured rubber

**Assembly:** Dedicated assembly screws

**Purpose:** Temporary and permanent separation of lanes, road markings

**Colours:** Red, yellow / reflective elements - glass beads

### Features:

- The used elastic rubber gives a guarantee of resistance when driving over

Tolerance of dimensions and weight +/- 2%

## Rubber tile 'BRAJL'

**Exterior:** Vulcanised rubber

**Assembly:** Sticking with polymer glue on a previously prepared surface

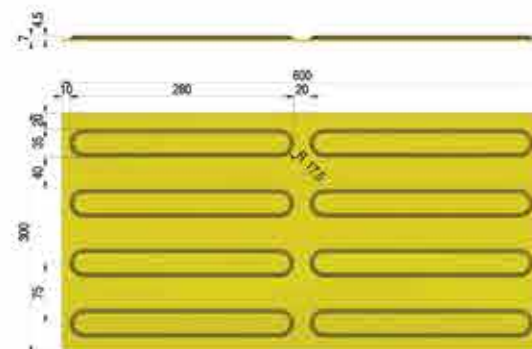

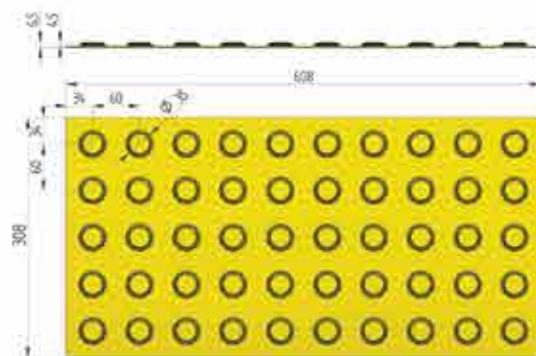

**Purpose:** Warning tiles at bus stops, metro stations and railway platforms, roadside architectural elements for the blind and visually impaired

**Colours:** Yellow, white, other colours available for large projects

### Features:

- Hard-wearing surface, resistant to weather and ageing

Tolerance of dimensions and weight +/- 2%

**LENGTH x WIDTH x HEIGHT (mm)** 600 x 300 x 6.5 (-4.5)

**WEIGHT (kg)** 1

Download the  
technical data sheet

Suitable for  
people with disabilities

## FLEXIBLE Bollard

### Features:

- High reflectivity

**Exterior:** TPE

**Assembly:** Setting up on location, connecting to the ground using assembly screws

**Purpose:** Marking of narrowings, pedestrian crossings, separation of lanes, separation of cycle paths

**Colours:** : Orange / reflecting elements - white

Tolerance of dimensions and weight +/- 2%

## MULTIPURPOSE City bollard

### Features:

- High flexibility and resistance to damage

**Exterior:** Vulcanised rubber

**Assembly:** Concrete 500 mm deep in the ground or stabilised with quartz sand in a plastic tube or using a dedicated rubber base

**Purpose:** Separation of small urban architecture, separation of traffic lanes, pedestrian routes

**Colours:** Black with reflective element

## ANTI-VEGETATION Mat

### Features:

- Water permeability
- Cover Ø30 mm
- Cover 330 mm x 400 mm
- Roll - special offer
- Sheets 1000 mm x 1200 mm
- Thicknesses 8 mm, 10 mm and 12 mm

**Exterior:** Rubber granules

**Purpose:** Applied to U-1 posts\*, unrolled under energy-intensive barriers, along roads, motorways, railways. Protection of posts / pillars in car parks

**Advantages:** Protection against unwanted plant growth, elimination of costly mowing, repeated throughout the year

**Colours:** Black

\* Optional openings on demand

Download the technical data sheet

## RUBBER ELEMENTS OF BLADES for snowploughs

Exterior: **RECYCLED** vulcanised rubber strengthened with textile cord

Assembly: With assembly screws

Purpose: Snowploughs

Colours: Black

### Features:

- High abrasion resistance

We can manufacture blades of any needed size.

Tolerance of dimensions and weight +/- 2%

## PASSENGER PLATFORM

**Exterior:** Vulcanised rubber

**Assembly:** Bonding to the ground

**Purpose:** It resolves the conflict between intersecting cycle paths and bus stops, improves the accessibility of bus stops when they are in a vehicle parking area and allows cycle path users to ride behind bus stops.

**Colours:** Black / reflective elements - white, yellow tapes

---
